No prior Dance Experience is Necessary!

Teaching dance is a career option for anyone - even those with no prior dance experience! This Program was created and designed to provide the vocational skills needed to be successful in the ballroom dance industry. This program is a Professional Certification Program, and is the perfect opportunity for anyone who loves dance, and is serious about becoming a highly qualified ballroom dance instructor. The Teacher Training program covers 12 different dances and is divided into six 4-month semesters. Each semester is a course unto itself, and you may start the program at the beginning of any semester.

The entire program can be completed in 24 months, on an accelerated individualized custom schedule! In these courses, you will learn the leader's and follower's parts of all the figures in the Bronze Syllabus.

You will learn the technical elements from a teacher's perspective and how to communicate them effectively.

The course provides full immersion into the world of ballroom dancing: tuition includes free practice and parties, along with discounted group classes!

Students participating in this program will become highly qualified teachers. The training provided is extremely technical. Upon completion of the course program, successful candidates can be tested for Certification by a National Examiner for Junior Associates Certification, or Full Associates Certification. Certified Teachers are potentially desirable employees in dance studios around the country, because of the level of expertise this training provides. Full Associates Certification recognized by the NDCA is the first step to being acknowledged as an expert in the field of ballroom dance.

The National Dance Council of America (NDCA) is the official governing body for dancing in the United States. Its purpose is to provide, on a nation-wide basis, a united inter-association agency to represent the interests of those in the dance profession and other dance-related entities and organizations, and to act as the agency for cooperation with similar councils in other countries. The NDCA stated purpose is to also conduct a continuing campaign for the establishment and the maintenance of high standards in dance education, and to acquaint the public with the nature and benefits of these standards and to recognize the status of qualified dance teachers affiliated to member organizations of this Council.

The Ballroom Dance Teachers Training prepares potential ballroom dance teachers to become ***Certified Ballroom Dance Teachers*** recognized by the NDCA (National Dance Council of America). Students learn how to dance both the Lead and Follow, how to teach, referencing a standardized, nationally recognized Syllabus. The courses offered through the program are intensive studies of dance training, theory, teaching methodology, and professional deportment. The program takes students on a journey that greatly enhances their own dancing, and prepares them for a highly successful career as a ballroom dance teacher. Students can also have potential career opportunities here locally at StaverDanceSport.

Purpose of this Program -

The participants learn how to dance with technique, how to effectively teach ballroom dancing to students, and begin a career as a dance professional. Program participants need not have any prior dance experience.

Other programs available for certification training for those who are already teachers. For more information contact Linda Staver at 541-746-6268 or email: elstaver1@aol.com
